July 31, 2018

Dear Deputy Fire Chief Baer and Honorable Members of City Council,

We are writing in support and appreciation for the recent amendments to the fire codes as they relate to solar panels. This will help promote greater use of solar panels, while ensuring maximum safety for our firefighters.

We applaud Deputy Fire Chief Craig Baer for being proactive in response to changing technology and City Council for approving these changes.

Sincerely,

*Lynn Rothman*

Lynn Rothman, Chair
